

Goat anti-Rat IgM Polyclonal , HRP Conjugate

Product Specifications

Catalog Number:	SAB-210												
Host:	Goat												
Species Reactivity:	Rat Other species not tested.												
Specificity:	Based on immunoelectrophoresis and/or ELISA, the antibody reacts with the heavy chain of rat IgM but not with rat IgG or the light chains of rat immunoglobulins. No antibody was detected against non-immunoglobulin serum proteins. The antibody has been tested by ELISA and/or solid-phase absorbed to ensure minimal cross-reaction with human, bovine, and horse serum proteins, but it may cross-react with IgM from other species.												
Application:	WB (ECL, 1:5000 - 1:100,000), EIA (1:2,500 - 1:50,000) Other applications not tested. The optimal dilution for a specific application must be determined by the investigator												
Purification:	Immunoaffinity Chromatography												
Format:	PBS pH 7.6, 7.5 mg/mL BSA, 50% glycerol												
Storage:	-20°C Shipping conditions may differ from the recommended storage temperature												
Immunogen:	Purified rat IgM (whole molecule)
