Assay Designs is committed to Simplifying Your Science[®] by providing the highest quality, user-friendly products available. We understand that our customers require high quality products as well as prices that fit into their budget. To continue our commitment to our customers, Assay Designs has significantly lowered the prices of our Nitric Oxide kits. This change is effective June 25, 2007.

No changes have been made to either of the Nitric Oxide kits. These kits remain the same high quality, fast, reliable products that you have continued to use in your research. Assay Designs' Nitric Oxide kits are extensively tested in house and their superior performance documented by hundreds of peer-reviewed journals.

Please feel free to contact us regarding any questions or technical support. We appreciate our relationship with you and look forward to continuing to serve you in the future.
